

## **MHANY's First Time Homebuyer Program**

Experienced counselors guide families through the sometimes daunting First-Time Homebuying process.

### **Mr. Mofiqul Islam's Testimony (Quote)**

How can I merely say thank you and not express deeper gratitude for the support and assistance MHANY management has provided to me as a first time home buyer. From the moment I walked in and sat in the home buyer session, I felt the mutual respect and professionalism from all staff involved.

At times I grew impatient given the nature of paperwork involved, however that all changed once I became more immersed with a counselor who is very dedicated, knowledgeable and professional. Ms. Volda Albert, my counselor has proven to be sincere and encouraging. She kept my spirit up even as I was faced with other personal issues. She walked me through the process and continues to be resourceful and helpful. I can't also forget the help I received from Ms. Cecilia Joza and pleasant attitude from Julio at the front desk.

Without MHANY and a counselor like Ms. Albert, one can get easily lost and shoveled in the process. Thank you MHANY for committing to your mission of helping others. It is with deepest gratitude, my family and I wish MHANY to continue to help others become new home owners and work to maintain their American Dream.

My family and I are very excited and have a lot of work to do as we start packing and unpacking boxes. I am confident to say I can look forward to getting support from MHANY as there is much more to learn. I encourage others to take the time to invest with MHANY as they work hard towards home ownership.

Regards,

Mofiqul Islam
